EDUCATION DEVELOPMENT
FOUNDATION

INTRODUCTION:

Mauricette Child Education Development Foundation, registered on 4th of October 2013, after the name of a Belgium lady "Mauricette" who came to India in late 90s and worked extensively for slum children education and their development in India.

Inspired by the love and affection extended by this lady to the poor children, we decided to name this trust after her name.

Currently we are working in Kathputli Colony Slum near Pandav Nagar, New Delhi. In order to improve lives of poor people, we have decided to make use of the best tool to fight against their poverty, i.e. "Education", by supporting education of their children.

Considering the level of existing competition in India and in our society, we have decided to help slum children through our activities, while improving the educational quality, to give them an ambience wherein they can study and prepare themselves for the competitive world.

ACTIVITIES:

The activities of Mauricette Child Education Development Foundation are as under:

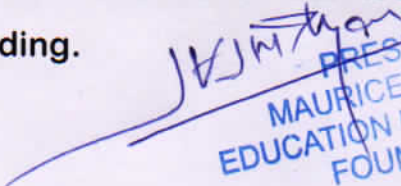

SUPPORT TO EDUCATION:

Mauricette Child Education Development Foundation is supporting full and partial study of poor slum children in private schools. Currently 44 slum children are supported through free distribution of books and study material in a private school. And education of 1 girl from slum is supported in private school.

FREE COACHING CENTRE:

A Free Coaching Centre is set up outside the slum to provide the students an ambience different from the slum, wherein, they can study and grow themselves to compete with main stream children.

- (i) In Free Coaching Centre, students are given English, Maths, Science, General Awareness and Computer classes.
- (ii) An expert teacher of Maths is also appointed to give Maths classes to children from 7th to 10th class.
- (iii) A small library is created, wherein useful books and stationary materials are kept for slum children. Children can issue books and carry them at home for reading.

FOUNDATION

- (iv) A Mentor-Mentee Programme is in place in Free Coaching Centre, in which senior children are assigned as "Mentor" to 2 junior children as "Mentee". Thus, the senior children held responsible for the learning and growth of the 2 juniors. This helps both ways, sense of responsibility to senior children and active support to junior children. Children study together and learn from each other.
- (v) Here students are not only taught but followed constantly.

FUN ACTIVITIES:

Considering the importance of Fun Activities, to release pressure from the tiny little shoulders of children, and to motivate children we organise painting, music, arts & crafts competition. Small outings with children (picnic, playing cricket, etc...) are also organised time to time.
